
Announcement Title: Postdoctoral Research Associate

Description: This position will primarily include research activities for a longitudinal study, funded by a National Institutes of Health (R01), “Perinatal Stroke: Longitudinal Assessment of Infant Brain Organization and Recovery through Neuroexcitability, Neuroimaging and Motor Development.” The study aims to recruit and longitudinally follow approximately 50 infants throughout the first 2 years of their lives. The study includes neuroimaging (i.e. MRI, DWI), neurobehavioral assessment, and assessment of brain circuitry through non-invasive brain stimulation using transcranial magnetic stimulation. More information about the position and requirements can be found here: <https://jobs.wisc.edu/research>

Additional Information: To apply, please send a letter describing graduate training and research interests, a CV, two representative publications and the names and contact information for three potential references, to Dr. Bernadette Gillick at bgillick@wisc.edu. Please note “Postdoc Inquiry” in the subject line.
