2021

**ASNR
VIRTUAL
ANNUAL
MEETING**

APRIL 5-9

AN INVITATION TO PARTICIPATE

The American Society of Neurorehabilitation (ASNR) invites you to be part of our Virtual Annual Meeting, to be held April 5-9. Over two hundred medical professionals and scientists devoted to the field of neurorehabilitation were part of the 2019 ASNR Annual Meeting. An even greater turnout is expected in 2021. These attendees are active clinicians, leaders of clinical neurorehabilitation facilities, and clinical and basic researchers in neurorehabilitative therapies. Their focus is to innovate in the science of neurorehabilitation, discuss new clinical and basic scientific findings and move patient care forward. This meeting has an outstanding program and would grow even stronger with your support and active participation.

Our meeting provides a wonderful opportunity for your organization and/or products to be exposed to leaders in neurorehabilitation, who are both clinicians, and researchers from all over North America and beyond. The meeting is exceptional for its scientific content, quality of the speakers, and integration between basic science and clinical practice. The meeting reflects the excellence of the ASNR's journal, *Neurorehabilitation and Neural Repair*, which has the highest impact factor among rehabilitation journals. We are excited to feature dedicated exhibitor space within our virtual platform.

MISSION

To improve the lives of people with neurological disorders through advances in basic and clinical research.

VALUES

- **High Quality Science.** We value rigorous and evidence-based science.
- **Diversity and Inclusivity.** We value difference in ideas and embrace people with all backgrounds.
- **Interdisciplinary.** We value the exchange of ideas among all scientists and professionals in neurorecovery™.
- **Leadership.** We strive to provide leadership in the science, technology and best clinical practices of neurorecovery™.
- **Education.** We value mentorship and training of the next generation of scientists and clinicians.

Sincerely,
Lewis Wheaton, PhD
ASNR Program Chair

MEMBERS OF THE ASNR are researchers and clinicians. Our members are internationally known for their scientific work to improve rehabilitation outcomes in patients with neurological diseases. More common diagnoses include Stroke, Traumatic Brain, Spinal Cord Injury, Parkinson's Disease, Multiple Sclerosis and Cerebral Palsy. It is through educational platforms such as our annual meeting that our clinicians are able to share and disseminate cutting edge information about functional rehabilitation of the neurologically impaired.

The ASNR Annual Meeting provides the rare opportunity for industry teams to not only market your products, but also to learn from the people best-suited to providing feedback and who are ultimately responsible for patient care.

ASNR Annual Meeting attendees have a specific interest in the scientific basis of neural repair and neurorehabilitation or the management of the neurological patients. These professionals have a unique perspective on the resources needing in neurorehabilitation, as they relate to the entire patient continuity of care. Clinical leaders at rehabilitation institutions are among the attendees. Connect with ASNR Members and gain a better understanding of clinical needs and the real-life impact of your products' design!
